

MATERIAL SPECIFICATION

TEXTAR

Textar T099

Main Vehicle Application

BPW	ROR
Fruehauf	SAE
Kässbohrer	SAF
Knott	Trailor
Lohr	York (Hendrickson)

Main Brake Manufacturer/Type

S-Cam

Friction Material Release

This aftermarket material has been specifically designed for s-cam foundation brakes.

Features and benefits

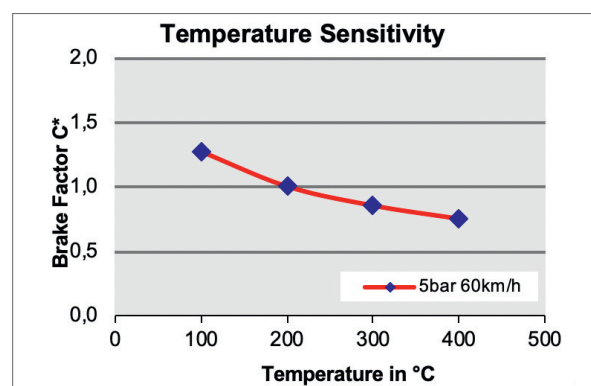

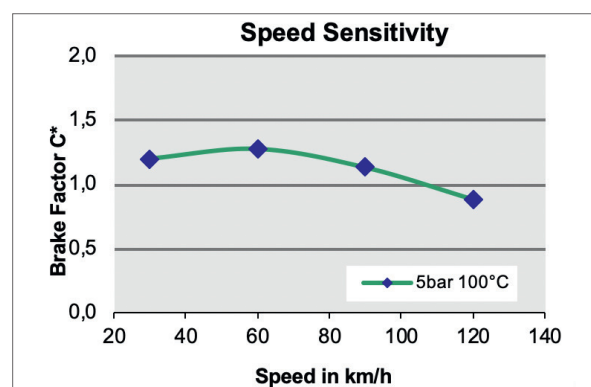

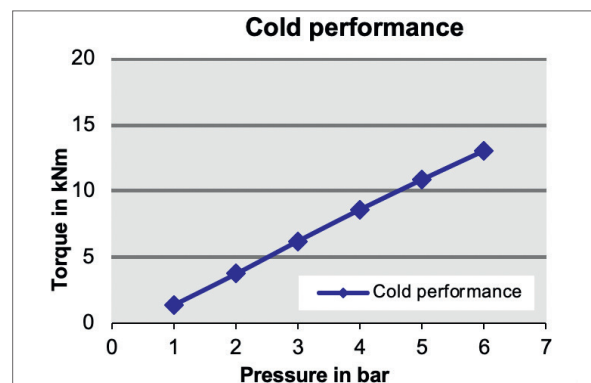

T099 is a fully moulded Asbestos-free lining with a medium co-efficient of friction, developed for s-cam foundation brakes.

General Description

Textar T099 is an Aftermarket Material developed to meet the requirements of trailer brakes at a cost-efficient base for the customer. This material has been designed to work with S-Cam foundation brakes on trailer applications and has gone through rigorous testing to adhere to European ECE R-90 legislation. T099 provides a good, stable level of friction over a range of speeds and temperatures.

Friction Performance/Output

(tested on BPW SN4218 S-cam brake, 420x180 mm linings)
